| RECOMMENDED PRELIGHTENING GUIDE | | | |
|--|-------------------------|--------------------|--|
| COLOR INTENSITY SHADE | PRELIGHTENED HAIR LEVEL | UNDERLYING PIGMENT | RESULT |
| Violet Pearl* Blush* Silver Ice* | 10 | Palest Yellow | Soft, reflective, light violet Pastel blush pink True icy silver |
| Rose Gold | 9 | Yellow | Soft Rose Gold |
| | 8 | Yellow/Orange | Rose Gold |
| | 7 | Orange | Warm Rose Gold |

*Hair must be prelightened to Level 10 before applying specific Pearl Pastel shades.

LET'S LOOK INSIDE...

With ingredients designed to shield even the most fragile strands, hair is left in beautiful condition.

QUADRAMINE COMPLEX, a radical defense system, delivers maximum protection from cuticle to cortex; hair is visibly healthier after each application.

KUKUI NUT OIL, is a highly prized moisturizer produced from the Hawaiian Candlenut tree. Loaded with essential fatty acids, vitamins, and antioxidants, this oil thoroughly hydrates parched hair while improving elasticity and shine.

NOW LET'S USE IT...

Color Intensity Pearl Pastel shades transform hair into a showcase of glossy, healthy color without damage or developer.

DIRECTIONS:

For maximum vibrancy, prelighten hair to Level 10/ palest yellow prior to application. Follow lightening guidelines to ensure you lift natural hair to the proper level to achieve optimal results.

Apply Color Intensity Pearl Pastel shades to clean, dry hair, wearing gloves to avoid staining.

Process for 20 minutes with or without heat.

Rinse thoroughly for several minutes (rinsing different shades separately).

Follow with Joico Color Endure Shampoo, K-PAK Professional Cuticle Sealer, and finish with K-PAK Intense Hydrator.

PRELIGHTENING TIPS

1. Analyze hair and get to know its history. Once you do this, you can determine if you'll be able to achieve the Level 10 base shade necessary to showcase most of these pearl pastel shades and leave hair in healthy condition.
2. Be sure your lightening results are even from root to tip. Consider some of these tips:
 - a. Use crème lightener on the scalp to protect the scalp and hair during the lifting process.
 - b. If it's a virgin lighting application, lighten lengths first, then the scalp/regrowth.
 - c. If the hair has been lightened previously, start at the scalp and don't overlap. Shift your developer and pull lightener through only if the hair needs it.
3. To keep hair its healthy best, shampoo and condition hair using K-PAK® Color Therapy™ products or the K-PAK Hair Repair System.
4. Once hair is prelightened, consider toning it with our LumiShine Demi-Liquid color to create the optimal base for your Pearl Pastel shade.

| LEVEL | DEMI-PERMANENT LIQUID SHADE | PRE-TONE BEFORE THIS PEARL PASTEL SHADE | RESULT |
|----------------|-----------------------------|---|--|
| Level 10 | 10SB | Violet Pearl Silver Ice | Softest Pastel Violet Pearl Softest Pastel Silver Ice |
| Level 10 | 9SB | Violet Pearl Silver Ice | Soft Violet Pearl Soft Silver Ice |
| Level 10 | 9NV | Blush | Soft Blush Pink |
| Level 10 | 9V | Violet Pearl | Deepest Violet Pearl |
| Levels 9/10 | 10NC | Rose Gold | Softest Pastel Rose Gold |
| Levels 7/8 | 10NC | Rose Gold | Rose Gold |
| Levels 7/8 | 8NC | Rose Gold | Warm Rose Gold |

APPLICATION TIPS

1. All Color Intensity shades can be intermixed with each other to create custom shades.
 2. When applying Pearl Pastel shades, take very fine slices versus thick sections.
 3. Thoroughly saturate the hair with your chosen Pearl Pastel shade.
 4. Unless you are creating a "melt", do not allow shades to merge into one another.
 5. When using foil, meche, or any other barrier to separate color, always go back and double-check your saturation after you complete the initial application.
- K-PAK Professional Cuticle Sealer should be used to lock in color intensity and assist in closing hair's cuticle.
 - Finish with K-PAK Intense Hydrator.

HOME MAINTENANCE TIPS

- Have client wait 24-48 hours before shampooing
- Recommend the proper Joico care products to protect your client's hue
- Recommend Instant Refresh (Dry Shampoo) to help stretch the time between shampoos
- Recommend our Color Co+Wash Whipped Cleansing Conditioner to use intermittently with their Joico color-saving regimen

PERFECT WHEN

- You want to experiment with the latest palette of wearable pastels
- You want low-commitment color that lasts 10 shampoos
- You want a conditioning color formula that leaves hair healthier looking with each application
- You want incredible color deposit and shine
- You want a palette you can intermix for limitless artistic options
